MEMORANDUM FOR Acting Executive

SUBJECT JJC 416/1 (wartime status of CIA)

REFERENCE Memo from Acting Executive dated 7 August

1. In view of the fact that the JJC paper has been approved, we think it is on its way to the JCS so that a short simple memorandum should be sent immediately to Secretary of Defense Johnson to forestall JCS formal action.

2. It is recommended, therefore, that the following memorandum be sent today to the Secretary of Defense instead of the longer one. Furthermore, we think that the longer one must be coordinated with at least AGC before it is sent out to Defense.   
*shorter to*

## JOINT MEMORANDUM TO THE SECRETARY OF DEFENSE

1. I understand that the Joint Intelligence Committee of the Joint Chiefs of Staff (JJC 416/1 dated 25 July 1960) approved a draft report on the wartime status and responsibilities of the Central Intelligence Agency and its field offices, together with a proposed revision of National Security Council Intelligence Directive No. 5.

2. It is believed that these papers are in some respects contrary to CIA's statutory responsibilities and those responsibilities under the existing directives. CIA was not represented in the discussions leading up to the preparation and approval of the JJC 416/1, nor have we been afforded any opportunity to submit comments or recommendations. I believe it is obvious that any paper relating so directly to our specific Agency responsibilities should be completely coordinated with us prior to action on the part of any agency in the Department of Defense.

3. Accordingly, I am addressing this memorandum to you to ensure that final action will not be taken within the Department of Defense without your full knowledge of my views.

~~TOP SECRET~~

b. I should be glad to discuss this matter with a representative of the Joint Chiefs of Staff and shall provide you with more detailed views as well as with a draft for revising MCID No. 5, considered by this Agency to more nearly meet essential requirements of Agency responsibilities than those set forth in the draft proposed by the JCS.
